

WEST 8 TO RECEIVE TWO ACKNOWLEDGEMENTS IN ARCHITIZER A+ AWARDS

18-07-2018

West 8 received both a nomination and a special mention in the [2018 edition of the Architizer A+ Awards](#). The New Hondsbossche Dunes project was shortlisted in the Architecture + Landscape category, and in the Outdoor Furniture category West 8 received a special mention for the Irma Logs.

For the sustainable transformation of a seawall into a dynamic and robust dunescape, our New Hondsbossche Dunes project was nominated as one of five finalists in the Architecture + Landscape category. The artificially created dunes stretching roughly 8 km along the Dutch coastline are in the race for both the Popular Choice Award and the Jury Award. To make your opinion count, you can cast your vote [here](#).

Public Voting ends on Friday July 20th and the winners of both the Architizer A+ Jury Awards and Public Choice Awards will be announced July 30th.

The nomination of this project is not the only accomplishment for West 8 in the award this year. Our benches and art pieces by the name Irma Logs have been honoured by the award committee with a special mention. Irma Logs are made from debris that was left behind by Hurricane Irma. First exhibited and sold at Design Miami in December 2017, a part of the revenue was donated to hurricane relief efforts. According to the jury, the special mention honours the most remarkable achievements amongst the top 5% of submissions.

To learn more about the above mentioned projects, you can visit the project pages of [The New Hondsbossche Dunes](#) and the [Irma Logs](#).
