On the 18th of October, 2018, Adriaan Geuze will speak at the Designing Water Conference in Longwood Gardens, Kenneth Square, PA.

The conference is organized by Longwood Gardens and The American Academy in Rome. International scholars and practitioners in garden design, landscape architecture, urban design, architecture, and ecology will convene to discuss and advance concepts of and strategies for designing water from the scale of a singular garden feature to integrated regional systems.

Adriaan Geuze will speak at the session "American Marvel: Longwood's Legacy in the New World", together with Colvin Randall, P.S. du Pont Fellow at Longwood Gardens.

Building upon the legacy of Pierre S. du Pont, Geuze will discuss the revelations, designs, and theoretical underpinnings of West 8's work at [Longwood Gardens](#).
