

ASLA 2018 PROFESSIONAL AWARD FOR LONGWOOD MAIN FOUNTAIN GARDEN

04-09-2018

Longwood Gardens' Main Fountain Garden has won an Honor Award in the General Design category of the 2018 ASLA Professional Awards.

"Brilliant. To do something so contemporary in the fountains, like the way the lighting works. That's where I think the creativity comes in," the awards jury commented.

This year, ASLA received 374 entries of which 25 received awards. The American Society of Landscape Architects (ASLA) recognizes the best of landscape architecture in the general design, analysis and planning, communications, research, and residential design categories from the United States and around the world.

For more information, please visit the [ASLA website](#) or view page 146-147 of the latest digital edition of [Landscape Architecture Magazine](#). Or watch the introduction video on the project from The Professional Awards ceremony. Video courtesy O'Keefe Communications:

We congratulate our fellow team members Beyer Blinder Belle, Fluidity Design Consultants, L'Observatoire International and consultants Urban Engineers, Landis Inc., Irrigation Consulting Inc., Keast & Hood Co. and Bancroft Construction.
